

## Parallel Lines and Angles ... Set 1 (with Answers)

Identify the angle pair as either corresponding angles, alternate interior angles, same side interior angles. Find the measure of each angle indicated.

Identify the angle pair as either corresponding angles, alternate interior angles, same side interior angles. Solve for  $x$ .

Find the measure of the angle indicated in bold.

Identify the angle pair as either corresponding angles, alternate interior angles, same side interior angles. Find the measure of each angle indicated.
